Business Planning and Strategy | Sales Forecasting | Revenue Reporting | Financial Modeling | SQL | Market Research

College Park, MD | +1 240 353 6635 | pravalikasure@gmail.com | [Linkedin](#) | [GitHub](#) | OPT – No Sponsorship Required

EDUCATION

Master of Science, Data Science | GPA: 3.87 / 4.0

Aug 2024 – May 2026

University of Maryland, College Park | College Park, MD

Coursework: Statistical Modeling, Machine Learning, Predictive Modeling, Database Management, Financial Analytics

Bachelor of Technology, Computer Science and Engineering | GPA: 9.01 / 10

Aug 2020 – May 2024

VNR Vignana Jyothi Institute of Engineering and Technology | Hyderabad, India

Graduated top 5% of class

Computer Science and IT Society (CSI), Event Coordinator: Managed sales coverage and quota tracking for 500+ member community; conducted market research, synthesized findings, and prepared concise summaries for senior leadership.

TECHNICAL SKILLS

Planning:	Sales forecasting, revenue reporting, margin analysis, financial modeling, sales coverage and quota analysis, compensation plan analytics, business performance metrics definition, actual vs forecasted value comparison, MAPE-based forecast accuracy
Analytics:	SQL (complex queries, data manipulation, CRM tool management, revenue data extraction), Python (pandas, NumPy, scikit-learn, automation), R (statistical modeling, tidyverse), SPSS, MATLAB, data triangulation, triangulate and synthesize findings
Research:	Market research, competitive intelligence, industry and competitor trend analysis, customer and partner trend analysis, research findings summarization for senior sales leaders, data from multiple sources synthesis, ad-hoc business reporting
BI and Reporting:	Power BI (DAX, revenue dashboards, margin tracking, KPI reporting), Advanced Excel (financial models, pivot tables, VLOOKUP, Power Query), analytic financial models, business plan development, performance measurement
Collaboration:	Cross-functional team facilitation, data collection and performance measurement process, escalation management, senior management relationship building, global stakeholder communication, project management, independent judgment

PROFESSIONAL EXPERIENCE

Business Planning and Strategy Analyst

Jun 2023 – Jul 2024

Sri Balaji Logistics | Hyderabad, India

- 3,000 to 4,500 monthly records analyzed to own sales forecasting, revenue reporting, and margin analysis, constructing analytic financial models utilizing data from multiple sources, defining metrics to measure business performance, and comparing actual data to forecasted values to identify variance drivers.
- 40% improvement in planning efficiency delivered by conducting and summarizing complex data and business analyses to develop business plans, executing market research projects, gathering competitive intelligence on industry and competitor trends, and preparing concise summaries tailored to senior sales leaders.
- 11% improvement in on-time delivery and 35% reduction in losses achieved by managing CRM tool data and sales coverage analytics, working with cross-functional teams to facilitate data collection and performance measurement processes, and escalating issues while making contributions to research and analyses on priority projects.
- Analytic financial models constructed utilizing data from multiple sources with minimal direction, defining business performance metrics, synthesizing findings from diverse data disciplines, and preparing ad-hoc business reporting and special projects supporting senior management strategic planning decisions.

Business Planning Analyst

Aug 2022 – Sep 2023

BKT Tyres (Sri Balaji Agencies) | Hyderabad, India

- 5,000+ SKU records analyzed to own revenue reporting, margin analysis, and sales forecasting, constructing financial models from CRM and ERP data sources, comparing actual performance to forecasted values, and contributing 6 to 8% improvement in margin through data-driven business plan development.
- Market research projects executed covering industry competitors and customer and partner trends, synthesizing findings from multiple sources into concise summaries for senior sales leaders that informed sales coverage, quota analysis, and compensation plan recommendations.
- Cross-functional team collaboration facilitated for data collection and performance measurement processes; managed CRM tool records, conducted ad-hoc business reporting and special projects, and built relationships with senior management to deliver independent analytical judgments on priority business planning initiatives.

PROJECTS

Demand Planning and Forecast Accuracy: Sales Forecasting and Revenue Analytics

2024 – 2025

Python, Power BI, Excel, SQL, R | Personal Project

- Problem:** A multi-product business had no sales forecasting framework, no revenue reporting infrastructure, and no analytic financial model to compare actual data to forecasted values, measure business performance metrics, or support senior sales leader strategic planning decisions.
- Solution and Role:** Sole analyst; owned sales forecasting and revenue reporting using SQL and Python, constructed analytic financial models from multiple data sources, defined business performance metrics with MAPE-based forecast accuracy tracking, and executed market research to synthesize competitive intelligence into concise summaries for leadership.
- Impact:** Forecast accuracy improved iteratively through actual vs forecasted value comparison; ~7 to 8% margin improvement identified through financial modeling. Delivered complete revenue reporting infrastructure, business plan development framework, and ad-hoc analytical models supporting senior management strategic planning.

Inventory Risk and Optimization: Financial Modeling and Business Performance Analytics

2024

Python, Power BI, DAX, SQL | Personal Project

- Problem:** A multi-SKU business lacked analytic financial models, had no sales coverage or quota performance tracking, and produced no revenue reporting or margin analysis to support business planning or senior sales leader decision-making across the organization.
- Solution and Role:** Sole analyst; constructed analytic financial models utilizing data from multiple sources, defined metrics measuring business performance, compared actual data to forecasted values, and built Power BI revenue dashboards with 40+ DAX measures supporting sales coverage, quota analysis, and compensation plan analytics.
- Impact:** ~7 to 8% margin improvement opportunity identified through financial modeling and margin analysis; delivered complete business planning infrastructure with revenue reporting, forecasting accuracy tracking, and concise senior management summaries enabling data-driven strategic planning decisions.

CERTIFICATIONS AND PROGRAMS

- CSCMP Supply Chain Foundations: Demand Planning Professional Certificate (Feb 2026), sales forecasting, demand planning, margin analysis, and revenue optimization.
- McKinsey Forward Program (2025): Selective global program covering Problem Solving, Communicating for Impact, and Adaptability and Resilience.
- Amazon ML Summer School 2023 (3rd Edition): Competitively selected for 8 sessions by Amazon scientists covering Supervised Learning, Deep Neural Networks, Reinforcement Learning, and Causal Inference.
